REPORT

OF THE

School Board of Effingham.

Compared with other years our schools for the past year have been above the average.

It is hardly to be expected that every term should, in every way, be a success. Sometimes the teacher is at fault, and sometimes the scholars and the parents.

Teachers destroy the success of a school when they take no interest in it beyond the money they get out of it, and parents and scholars are greatly at fault when scholars are allowed to be absent from school two or three days in a week. Some parents fail to understand that every day a scholar is absent is a day *lost*, that in no way can it be made up, or that a scholar who attends only one-half or two-thirds of the time not only loses himself but robs others as well.
